Project identification	X	EAPA_631/2016 AtlaSWH
Project partnership	X	This project involves some partners and their roles are: - Municipality of Florence: The role within the project is to be the partner outside the AA. Considering its important experience in researching the state and the challenges of World Heritage Sites, its main duty will be to undertake the WP5 on "Thematic Study on critical challenge". - Bordeaux Métropole has a special interest in the project because of its need to enlarge the WH site management to the buffer zone which has been reorganized. - Edinburgh World Heritage: To deliver the capitalization strategy plan for the partnership to achieve the best possible impact. - Consortium for the city of Santiago de Compostela Santiago will be responsible for the diagnosis study to be carried out to all partners involved in the AtlaS-WH project. It will involve building a solid diagnosis framework that will set the basis for the development of the project.
Brief summary	X	AtlaS.WH intends to create a network of urban WHS, by addressing common challenges related to the protection of their identity, while enhancing their cultural assets, in order to stimulate heritage-led economic and cultural development. The main result will be the Sustainability Plans for each WHS, by implementing an integrated and participative management and monitoring model, which arises from the common construction of a methodology and the exchange of know-how and best practices.

Project description	X	<p>The urban World Heritage sites (WHS) represent an important cultural value in the context of the Atlantic Area (AA). AtlaS.WH will be an important step for their preservation, enhancement and sustainability. The main objectives are: 1. To address, within a common methodology, the main challenges that each WHS is facing, including tourism, gentrification, risk management, climate change, energy efficiency, among others; 2. To develop strategies and public policies for the sustainability of urban WHS; 3. To create governance models, open to the community, integrated and participative; 4. To develop management tools, recommendation guides, assessment and measurement models; 5. To create a long-lasting network of WHS, in order to disseminate best practices and to reinforce cooperation.</p>
Project workplan	X	<p>Proj Prep: Porto stimulated contacts between all the partners and coordinated the proposals presented. Proj coord: Major aims are the start-up of collab network and the setup of mechanisms that will enable the implem of the proj, its manag/ coord. Proj Com: The commun. plan for the project aims to provide stakeholders with information. Cap: The capit. Strat. plan has been designed to allow the exploitation of the tangible and intangible results. Diag: In the first meeting to be held in Porto a framework for the initial diagnosis will be proposed to all the partners that will cover aspects about the state of the art of each WH site. Them Study on critical challenges: Based upon the previous diagnosis, a group of common challenges will be identified. Meth for the Manag and Sust Strat: The basis of the method are the intern principles. Manag and Sust Plans' Manag Tool: This WP will be based upon the Method and will define the instrumental tools needed to apply it in the cities involved.</p>
Project budget	X	<p>The budget was prepared by all partners taking into account the distribution of the Work Packages, their actions and the outputs to be achieved. Porto's budget is higher than the others as Porto will be responsible, not only for the preparation, but for two other packages. External Expertise and Services represent a relevant expense in the budget as the project intends to bring consultants/universities' expertise to it. The total budget is 1.822.665,00€.</p>
Output indicators	X	<p>6Work Packages(WP)include Proj Manag(WP1),Commun(WP5)and Proj Long-Term Effects(WP6),as well as Method for the Sustain Strategy(WP2),Manag Tools(WP3)and Awaren-</p>

	<p>Raising(WP4.In the WP2, an initial diagnosis will cover the state of the art of each WHS.A Method for the Sustain and Govern of each WHS will be proposed and an additional thematic study on critical challenges will be carried out. In WP3,a common open database will be created and will feed the future monitoring and benchmarking processes. However, the main output is the Manag and Sustainab Plans for each WHS, enabling a powerful instrum for effective manag, taking into account today's challenges and the prot, sustain and enhancem of their universal heritage value. Other output of this WP include guides for technical recommend,capacity building training sessions for the managers and staff of each WHS.WP4 includes trans(national)knowledge transfer sessions,local training for professionals and awareness-raising sessions for schools</p>
